The patent application referred to above was filed in the U.S. Patent Office as a national application under 35 USC §371. Applicants have been notified that a copy of the International Search Report has been made available in the national stage file as indicated on the Notice of Acceptance of the Application Under 35 USC 371 (Form PCT/DO/EO/903). The Notice does not indicate whether copies of the references cited in the International Search Report were received by the Patent Office. Therefore, copies of the references cited in the International Search Report are enclosed for the Examiner's convenience. However, Applicants have not submitted copies of the U.S. patents cited on attached Form PTO/SB/08 pursuant to 37 CFR 1.98(a)(2)(ii). In accordance with 37 CFR §1.56, Applicants hereby request that the references cited in the International Search

Report and listed on the attached form PTO/SB/08 be made of record and considered in the examination of the subject application.

Published International Application No. WO 01/09612, cited as F3 on the attached form PTO/SB/08, is written in a foreign language. In accordance with MPEP §609A(3), Applicants are submitting herewith a copy of the International Search Report from corresponding International Application No. PCT/EP03/50246. Applicants have also included U.S. Patent No. 6,472,165, cited U2, on attached form PTO/SB/08. The U.S. patent is cited on the International Search Report as a patent family member of International Application No. WO 01/09612 and is believed to be an English language equivalent. Applicants respectfully request that these references be made of record and considered in the examination of the subject application.

Applicants have also listed on form PTO/SB/08 numerous references which have not been cited in the international search report. Copies of these references are enclosed with this IDS. Applicants respectfully request that these references be made of record and considered in the examination of the subject application.

Applicants respectfully assert that the substantive provisions of 37 CFR §§1.97 and 1.98 are met by the foregoing statement.

Respectfully submitted,
